Ch

Ex Parte Quayle

1. This application is in condition for allowance except for the following formal matters:

In claim 8, lines 10-11, the claimed “a function of at least one of the transmission operating parameters, wherein” should be corrected to “a function of at least one of the transmission operating parameters detected by the sensors, wherein” so that the stated “transmission operating parameters” specifically refer to data received from the sensors stated in line 5 of the claim, and does not ambiguously confuse with the “operating parameters associated with reference transmission ratios” stated lines 7-8 of the claim.

Reasons for Allowance

2. The following is an examiner’s statement of reasons for allowance:

Prior arts of record do not disclose an apparatus for regulating the transmission ratio of a continuously variable transmission of a motor vehicle, the apparatus includes a preliminary control device that can determine a preliminary control value using a transmission operating parameter measured from the sensors, the preliminary control value is stored in the preliminary control device as a function of at least two transmission operating parameters; a comparator compares a measured transmission ratio of the transmission with a reference transmission ratio and derives from the comparison an adjustment value; the adjusting device receives the preliminary control value and the adjustment value to provide a set point value to adjust the measured transmission ratio, the adjusting device adjusts the preliminary control value so that the

measured transmission ratio coincides with the reference transmission ratio when the adjustment value is approximately zero so that the changes in transmission operation over time caused by wear of transmission part is accounted to.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
